Montgomery County is one of nine counties in the state to receive the special gold Prairie Farmer 4-H Club merit award for last year's program of work. This announcement was made by the 4-H Club office at Purdue University Monday. The award will be presented at the annual 4-H Round-up in June at Purdue.

The awards are made to be attached in a chain fashion to a large walnut and bronze wall plaque. The gold award will carry the number of members enrolled and the number of standard club members for the year.

Membership in the county in 1952 totaled 884. Of these 741 completed requirements for "standard club" members.

Montgomery County has received this award for eight consecutive years — four bronze, one silver and three gold.
